Understand the fundamentals and structure behind this innovative hairstroke method.

- **Color Theory & Pigment Selection**

Learn how to choose and combine pigments effectively based on skin tone and desired results.

- **Understanding Tattoo Machines**

Explore different types of devices and learn how to select the most suitable one for hairstroke work.

- **In-Depth Needle Analysis**

Break down the types of needles – their shapes, sizes, configurations, and how each affects the final result.

- **Mastering Hand & Machine Speed**

Analyze how the rhythm of your hand and the speed of the device influence pigment implantation.

- **Perfecting Needle Angle & Technique**

Learn how to hold and angle the needle correctly to ensure precision, retention, and skin safety.

PROGRAM / DAY 1

AFTERNOON PRACTICE SESSION

- **Live Demonstration of 4 Stroke Types**

A detailed breakdown and visual explanation of four different hairstroke techniques.

- **Designing Shapes & Schemes**

Learn how to create balanced brow shapes and map out stroke placements with precision.

- **Introduction to 3 Pattern Styles**

Explore three unique hairstrokes patterns to suit various face types and client preferences.

- **Hands-On Practice on Paper**

Begin developing muscle memory by practicing strokes with pencil or pen on paper.

- **Practical Training on Latex**

Simulation of real procedures and refine your technique.

- **Assigned Work Under Master's Guidance**

Students complete specific tasks given by the Master for focused, skill-based improvement.

- **Best Latex Work Competition**

A friendly contest to recognize the most impressive student latex result – with a special award.

PROGRAM / DAY 1

DEMO MODEL

Final Part of the Day

- **Live Model Demonstration**

Observe the Master performing the Kybrows technique on a live human model – from start to finish.

- **Certification Ceremony**

Students receive official certificates recognizing their participation and newly gained skills.
